

Naloxone Distribution Project

Who can receive overdose/naloxone kits:

- **ANY PATIENT or VISITOR at risk of an opioid-related overdose (prescribed or illicit opioids),**
- **OR a patient or visitor who is a family member, friend, or other person in a position to assist a person at risk of an opioid-related overdose.**
- **OR a patient or visitor who uses stimulants**, or a patient or visitor who is a family member, friend, or other person in a position to assist a person who uses stimulants. People who smoke, snort, and inject stimulants are now being **unexpectedly exposed to stimulants contaminated with fentanyl**, often with catastrophic results.

Who can dispense:

- **Any [your hospital name] staff member. First review this 11 minute training video: <https://goo.gl/f3UcTj>. QR code for video:**

How to dispense:

1. Get naloxone (charting room cabinet)
2. Complete dispense log (on cabinet door)
3. Review the instructions (on the naloxone box) with patient or visitor
4. For patients: EHR (Wellsoft, Epic, etc) note: "Naloxone and overdose education provided"

Why dispense:

- **In 2017 the risk of dying from opioid overdose surpassed the risk of dying from a MVC**
- **Naloxone saves lives by reversing overdose**
- **As of 1/2019 provision of overdose education and offering naloxone to those at overdose risk is required by law** (*Article 10.7, Chapter 1, Division 2, Ca Business and Professions Code*)
